***Kalyan***  
**INDUSTRIES**

## ABOUT US ...

- We **KALYAN INDUSTRIES** manufacturer & exporter of Construction Chemicals & Metal Powders Since 1975.
- We are family organization with total customer satisfaction attitude.
- We produce the material as per customer specification as well, as per the national & international standard.
- We have departmental heads, supervisors with their work responsibilities.
- We are conducting in house daily & periodically meetings.
- We are also organizing workshops & in-house training for technology & workmanship updating & effective accuracy at all the level.

## SALIENT FEATURES...

- Our key post executives are trained with iso 9000
- Committed for uniform & world class quality
- Our clientele comprising maximum iso certified companies
- Varieties of quality construction chemicals & metal powders under one roof.
- Constant innovation, development & cost economy with total constructive attitude are our ethics.
- 100% in time shipment & best services always.
- Dealers & applicators network across india.

# Kironite®

## FLOOR HARDENER

## Kironite® SPRINKLE A NON-METALLIC FLOOR HARDENER

- |                     |   |
|---------------------|---|
| HS Code Description | Prepared additives for cements, mortars or concretes: Others                            |
| Trade Description   | Floor Screeds, Cement Base OR Concrete Surface Hardening Compound OR Dry Shake Hardener |
| Packing             | 25 Kgs Bag  |
  
- |                          |   |
|--------------------------|---|
| Why this product? (Uses) | <ul style="list-style-type: none"> <li>  Most ideal for de-watering concrete flooring systems.</li> <li>  Forms very good monolithic bond with base concrete.</li> <li>  Essential for abrasion resistance and hardwearing surface.</li> <li>  Provides a dense non-porous as well as non-slip surface.</li> <li>  Suitable for new millennium concrete flooring.</li> <li>  Also available in different colors for color concrete flooring.</li> </ul> |
|--------------------------|---|
  
- |                  |   |
|------------------|---|
| Application Area | <ul style="list-style-type: none"> <li>  Bus Stand, Railway Station Parking, Air Port Parking Areas...</li> <li>  Inside concrete roads of factories....</li> <li>  Basement Parking, Shopping Mall Parking Areas...</li> <li>  Automobile service station, workshop...</li> <li>  Power Room, Generator Room, Power Plants...</li> <li>  Commercial Complex Residential Complex Parking Areas....</li> <li>  In Short all kind of light to heavy duty concrete floors made by tremix flooring or laser flooring systems; where the abrasion resistance is required.</li> </ul> |
|------------------|---|
  
- |        |                        |
|--------|------------------------|
| Tested | As per IS: 1237 – 1980 |

## CAST IRON Powder Reduction Grade

- HS Code Description** | Granules and powders, of iron, spiegeleisen, iron or steel
- Trade Description** | IRON POWDER, CAST IRON POWDER, METAL POWDER
- Packing** | 50 Kgs Bag
- Why this product? (Uses)**
  - Pioneer company with well equipped lab. Testing facilities.**
  - Economically beneficial due to high purity & adequate reactivity.**
  - Committed for uniform and world class quality in any mesh & rigid specification.**
  - Quality product at most competitive & reasonable rate.**
  - In time shipment with the best services.**
  - Valued trial order with specification will be solicited.**
- Uses** | Dyes, Intermediates, Pharmaceuticals, H. Water, Iron Tonics, Triclosan, Synthetic Caffeine, Automobile Parts, Chemicals Etc.
- Tested** | As per IS : 1612 – 1976

## CAST IRON CHIPS

### CAST IRON FILLINGS

- | HS Code Description**    **|** Granules and powders, of iron, spiegeleisen, iron or steel
  
- | Trade Description**        **|** IRON CHIPS, CAST IRON CHIPS, METAL CHIPS, CAST IRON FILLINGS, IRON FILLINGS, METAL FILLINGS
  
- | Packing**                        **|** 50 Kgs Bag
  
- | Why this product? (Uses)**    **|** Pioneer company with well equipped lab. Testing facilities.
  - |** Economically beneficial due to high purity & adequate reactivity.
  - |** Committed for uniform and world class quality in any mesh & rigid specification.
  - |** Quality product at most competitive & reasonable rate.
  - |** In time shipment with the best services.
  - |** Valued trial order with specification will be solicited.
  
- | Uses**                            **|** Chemicals, Automobile Parts, Zinc Smelters, Iron Melting Plants Etc...
  
- | Tested**                            **|** As per IS : 1612 – 1976

# COPPER SLAG

- HS Code Description | COPPER SLAG
- Trade Description | COPPER SLAG, IRON SILICATE, SHOT BLASTING ABRASIVE
- Packing | 50 Kgs Bag, 1 MT Bag
- Why this product? (Uses)
  - Economically beneficial due to directly procurement from copper smelters.
  - Granulated material having black colour.
  - Committed for homogeneous and perfect quality in mesh.
  - Quality material at reasonable rate.
  - In time shipment with the best services.
  - Valued trial order with specification will be solicited.
- Uses | Shot blasting, Abrasive, sub base of roads, land filling

# **IRON OXIDE POWDER**

- HS Code Description    ■ Iron Oxides and Hydroxides
  
- Trade Description        ■ IRON OXIDE POWDER, IRON OXIDE, METAL OXIDE
  
- Packing                    ■ 50 Kgs Bag, 1 MT Bag
  
- Why this product? (Uses)    ■ Economically beneficial due to high purity.  
   ■ Totally Magnetic & Metallic Material.  
   ■ We have well equipped lab. Testing facilities.  
   ■ Committed for homogeneous and perfect quality in mesh & purity specification.  
   ■ Quality material at reasonable rate.  
   ■ In time shipment with the best services.  
   ■ Valued trial order with specification will be solicited.
  
- Uses                        ■ Counter weight, Oil well drilling, fluxes, earthing chemical, Batteries and Melting Charge, Metal Object Coating, Heat Stability Agent, Thermit Welding, Abrasive Media, Heat Absorbent Glass, Metallurgical Application, Iron Salts, Hydrogen Remover in Air & Gas Dryers, Iron Salts, Friction Products, Automobile Parts, Etc...
  
- Tested                      ■ As per IS : 1493 (PART 1) – 1981
